

My Celeriac Growing Checklist

St. Paul, MN (55112) • Name: _____ Year: _____

MARCH

- Start seeds indoors (celeriac grows slowly!)
- Give lots of light
- Keep soil moist

APRIL

- Pot up seedlings carefully
- Keep in sunny spot
- Water gently

MAY

- Harden off plants
- Transplant after last frost
- Choose rich compost soil

JUNE

- Water often
- Add mulch
- Pull small weeds

JULY

- Keep soil evenly moist
- Watch root bulb swell
- Check plant health

AUGUST

- Continue watering regularly
- Remove yellow leaves
- Watch bulbs size up

SEPTEMBER

- Harvest before hard frost
- Loosen soil carefully
- Trim leaves from root

OCTOBER

- Store roots in cool place
- Save seeds if desired
- Clean garden bed

I am a CELERIAC GROWING STAR!
