

My Celery Growing Checklist

St. Paul, MN (55112) • Name: _____ Year: _____

MARCH

- Start seeds indoors (celery grows slowly!)
- Give lots of light
- Keep soil moist

APRIL

- Pot up seedlings carefully
- Keep in sunny spot
- Water gently

MAY

- Harden off plants
- Transplant after last frost
- Choose rich soil with compost

JUNE

- Water often (celery loves water!)
- Add mulch
- Pull small weeds

JULY

- Keep soil evenly moist
- Blanch stalks if desired (wrap lightly)
- Check plant health

AUGUST

- Harvest outer stalks first
- Keep watering regularly
- Watch for pests

SEPTEMBER

- Harvest full plants before frost
- Cut at base
- Clean garden bed

OCTOBER

- Harvest remaining plants
- Store in refrigerator
- Compost plant scraps

I am a CELERY GROWING STAR!
